

ANGGARA TRI PUTRA

Frontend Developer

Jakarta | +6281381873043 | anggaratriputra@gmail.com | [linkedin](#) | [github](#) | [web portofolio](#)

SUMMARY

A highly dedicated and motivated IT professional with a degree in Informatics Engineering, specializing in Frontend Web Development. Alumni of Purwadhika Digital Technology School's Fullstack Web Development Bootcamp, where I excelled in various aspects, including project completion ahead of schedule, consistently high performance in assessments, and receiving commendation for teamwork and leadership. Skilled in utilizing ReactJS, JavaScript, and related technologies as core stacks. Currently exploring Next.js and TypeScript to broaden skill set and embrace modern development practices. Eager to contribute technical expertise, a passion for learning, and a collaborative mindset to a dynamic team. Proven ability to thrive in high-pressure environments.

PROJECT EXPERIENCE

- **"RAINS" a Multi Warehouse E-commerce**

Developed a Multi-Warehouse E-commerce platform using MERN (MySQL, ExpressJS, ReactJS and NodeJS) stack, incorporating UI/UX design and ensuring responsiveness. Worked on the development of authentication features, contributed to the design of an inviting homepage, ensured clear product views, and participated in the creation of an admin dashboard with advanced inventory tools. Achieved a secure and user-friendly system, meeting diverse user and administrative needs.

- **"Mekdi Cashier App" a Point-of-sale Management**

Developed a Point of Sale (POS) application using the MERN (MySQL, ExpressJS, ReactJS and NodeJS) Stack to efficiently manage administrative and cashier operations. Inspired by McDonald's, the project aimed to create a seamless and user-friendly POS experience for businesses, enhancing operational efficiency and customer service. Worked on developing administrative functionalities, menu lists for cashiers and process of transaction in the POS application. Achieved seamless integration of all components, resulting in a fully functional POS system that streamlined operations.

- **"myTix" an Event / Ticket Management**

Developed front-end project using ReactJS for event management, optimizing the ticket transaction process. Implemented an intuitive interface for buyers to effortlessly select ticket quantities, apply codes, choose payment methods, and view purchase history. Achieved a streamlined and user-friendly experience for efficient event ticket transactions.

EDUCATION

- **Purwadhika Digital Technology School (Jul 2023 - Jan 2024)**

Fullstack Web Development, Grade 84.40 / 100

Program Highlights:

- Conducted an in-depth study and gained hands-on experience in Full Stack Web Development.
- Explored topics encompassing front-end technologies (HTML, CSS, JavaScript), back-end development (Node.js, Express), and database management (MySQL).
- Developed practical skills through real-world projects and actively engaged in collaborative learning.
- Underwent training on industry best practices and the latest technologies in web development.

Achievements:

- Successfully completed intensive training, showcasing proficiency in full stack web development.
- Executed and deployed web applications, demonstrating skills in both front-end and back-end development.
- Actively contributed to collaborative projects, fostering effective teamwork and communication.

- **Gunadarma University (Aug 2016 - Jan 2021)**

Bachelor of Engineering, Informatics Engineering, GPA 3.55 / 4.00

LISENCE AND CERTIFICATION

- **ITBOX (Feb 2024)**

Course : Fullstack Javascript Web Development Advanced

link : [certificate](#)

- **Purwadhika Digital Technology School (Jan 2024)**

Course : Job Connector Bootcamp Web Development

link : [certificate](#)

SKILLS

- Javascript
- Typescript
- ReactJs
- NextJs
- ExpressJs
- NodeJs
- MySQL
- Redux
- Sequelize
- Object Relational Mapping (ORM)
- Git & Github
- RESTful API
- Tailwind
- Chakra UI
- Agile Software Development
- Database Design
